ASB Leadership

- Leadership is a yearlong class
- Emphasis is on the development of school wide activities, which enhances self-esteem and school spirit within our school environment.
- Students learn about leadership styles and techniques, parliamentary procedures, budget planning and organizational skills.
- Leadership students work together to develop, plan, and implement a variety of student activities.
- Students who are successful in this course are motivated self-starters, willing to go the extra mile for the school, can work cooperatively and respectfully in committees, and have a positive attitude.

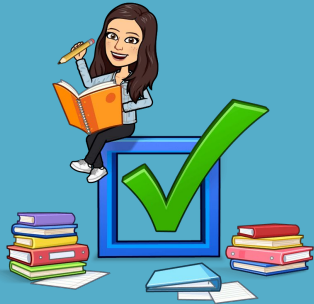

[Click to go back to main leadership slide](#)

Why take this class?

Build Leadership Skills

- Public Speaking
- Teamwork
- Creativity
- Goal Setting
- Planning
- Kindness
- Productivity
- Compassion
- Problem Solving
- Advertising

Student Driven Class

- This class is student driven, meaning its up to the students in the class to create the fun! They are the ones that create and implement all student activities such as events, spirit days, community service projects, fundraisers & more

 [Click to go back to electives list](#)

Some Responsibilities of Students in ASB Leadership

School Jobs

Line monitors, recycling, new Student Tours, morning announcements,

School Events

Create & implement events such as spirit days (every Friday), lunch time games, dances, talent show & more!

Monthly Newscast

Be part of filming and creating our newscast of events & important information

Service Projects

Create & implement service projects that help our school & community

Advertising

Creating posters, graphics for flyers/instagram promoting our events. Decorate the school.

Be the Role Model

Students in this class are the role models of the school & have high expectations of being respectful, tolerant, and courteous of others

Mrs. Sarah Chade

Hello! So great to see that you are interested in leadership! We will have so much fun together next year!

Facts about me:

- Masters in Teaching from UC Irvine
- 7th year teaching at Venado Middle School
- I was in ASB through all of middle and high school

Click  to go back to electives list

Art

Students will explore and develop understanding of a variety of artistic techniques and mediums.

Techniques will include drawing and painting and sculpture.

Mediums may include graphite, tempera and acrylic paint, watercolor, and more.

Students will also engage in developing academic literacy in the elements of art and principles of design, art history, careers, and criticism.

Students with all levels of artistic skill are welcome to join this class to explore, experiment, and create an artistic voice.

See examples of student work on the next slides

COURSE DESCRIPTION

02

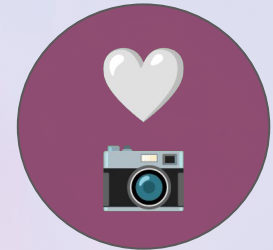

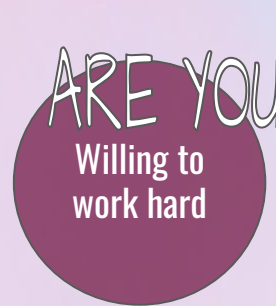

WHY TAKE THIS CLASS?

03

INFORMATIONAL VIDEO

04

MEET YOUR TEACHER

Course Description

Photojournalism is a year-long course that provides an introduction to the art and principles of digital photography and how to use original photography to tell a story. Students will learn to use different software applications, including PhotoShop, to enhance and manipulate photos.

With the help of publishing software, students will use their photography and writing skills to create the design and layout of our annual yearbook. Students should be proficient writing and in using computers, and have some experience with or interest in using photo editing and/or publishing software.

Because Yearbook students work collaboratively within groups and with the advisor to create the school yearbook, this course requires that students are creative, work well in a self-directed classroom, and are able to meet established timelines for completion of work. Students are responsible for using digital cameras to take pictures at school events and for using computers to design the yearbook, including layouts, photos, captions and more. Students enrolled in this class must be self-motivated and responsible for effectively managing their time.

WHY TAKE THIS CLASS?

LEARN *REAL WORLD* SKILLS

- Photography & Editing
- Event Planning
- Leadership
- Marketing
- Graphic Design
- Journalism

BE PART OF A TEAM

- Make new friends
- Be a leader
- Help others
- Celebrate milestones

MAKE A DIFFERENCE

- Make people feel seen
- Bring attention to people and classes around campus
- Create a book people will buy and keep for DECADES!

Watch this video to learn more!

Intro to Sign Language-

Trimester Wheel #1 (Intro to Sign Language, Exploring Culinary Arts, Drama)

Students enrolled in this elective will rotate and spend a trimester in each of the three classes: Intro to Sign Language, Exploring Culinary Arts, & Drama.

American Sign Language introduces basic conversational skills, as well as provides some insight into Deaf Culture. Students will learn basic signs, finger spelling, and sentence structures that would be useful when interacting with deaf students at Venado and in the community. Through teacher modeling, sign videos, sign games, structured dialogues, and deaf/hearing student interactions, students will develop both receptive and expressive American Sign Language skills.

Mr. Upshaw

Hello everyone,

I am super excited that you are considering Drama! Here are some facts about me

- ★ Received my bachelors degree in History at Reed College and teaching credential from CSULB
- ★ I have been teaching for 4 years
- ★ Love hiking, running, camping, and spending time with my family!

What is Exploratory Computers?

Exploring Computer Science is designed to introduce students to the breadth of the field of computer science through an exploration of engaging and accessible topics.

Rather than focusing on learning particular software tools or programming languages, the course is designed to focus on the conceptual ideas of computing and help students understand why certain tools or languages might be utilized to solve particular problems. The goal of Exploring Computer Science is to develop in students the computational thinking practices of algorithm development, problem solving and programming within the context of problems that are relevant to the lives of today's students.

Students are introduced to the following activities/programs!

Google Docs, Sheets,
Slides, Drawings, etc.

**IF YOU CAN
DREAM IT
YOU CAN
DO IT**

If you can dream it, you can build it in MS STEAM. STEAM stands for Science, Technology, Engineering, Art and Math. During the course, students will take thoughtful risks, engage in experiential learning, persist in problem-solving, embrace collaboration, and work through the creative process using various technologies. Students will have the opportunity to design, build and problem solve using CAD software, various coding languages, 3D printers, laser cutter, various robots, and Arduinos. We will also be exploring various STEAM careers and opportunities outside the classroom.

Mr. Le

“STEAM ignites the imagination and sets the soul on fire. It allows students to create endless ideas. And it allows students to explore the world through their fingertips! The possibilities that it provides for learning are limitless!”

- Mr. Le
- 5th year at Venado!
- Sports Fanatic!
- Love to travel!

Speech and Debate

Learn how to properly
communicate and
exchange ideas

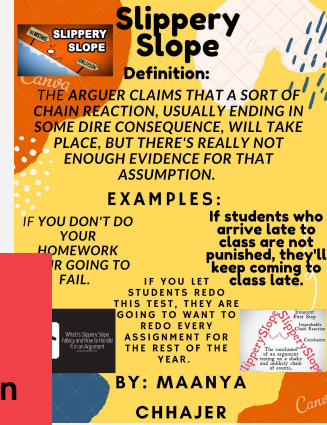

Click  to go back to [electives list](#)

2:42:00

What is Speech & Debate?

In this course, students will explore the various elements of speech and debate through various individual and collaborative formats. Students will learn public speaking strategies to help them deliver and write speeches on various topics and genres, such as informative, narrative, and persuasive, that can reach an audience. The class will also include a debating section that will allow students to collaborate with a team of their peers with the goal to prepare and deliver debates. By the end of this course, students will have further developed their critical thinking, speaking, listening, and research skills that will provide them with tools to better share their individual, unique voices with others.

Slippery Slope

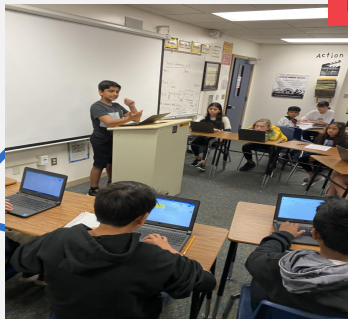

Definition:
THE ARGUER CLAIMS THAT A SORT OF CHAIN REACTION, USUALLY ENDING IN SOME DIRE CONSEQUENCE, WILL TAKE PLACE, BUT THERE'S REALLY NOT ENOUGH EVIDENCE FOR THAT ASSUMPTION.

EXAMPLES:

- IF YOU DON'T DO YOUR HOMEWORK OR GOING TO FAIL. **If students who arrive late to class are not punished, they'll keep coming to class late.**
- IF YOU LET STUDENTS REDO THIS TEST, THEY ARE GOING TO WANT TO REDO EVERY ASSIGNMENT FOR THE REST OF THE YEAR.

BY: MAANYA CHHAJER

Handwritten notes on the right side of the meme:
- Slippery Slope
- Chain Reaction
- Dire Consequence
- Not Enough Evidence
- Assumption
- If students who arrive late to class are not punished, they'll keep coming to class late.
- If you let students redo this test, they are going to want to redo every assignment for the rest of the year.

Four Skills That You Will Take Away From This Course

Public Speaking

This course is dedicated to refining public speaking skills

Research

Expect to conduct scholarly research on topics to present.

Debate

Students will learn how to exchange ideas in an academic debate

Literacy

This course is designed for students to also read and analyze written speeches.

Mr. Beckman

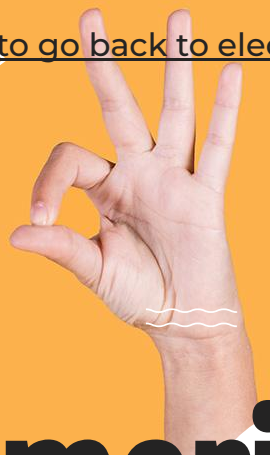

Hello! So great to see that you are interested in Speech and Debate! We will have so much fun together next year!

Facts about me:

- Received Bachelors in History from CSU Fullerton & a Masters in Teaching from Chapman University.
- I love playing sports, reading, being with my family, and going to church.
- This is my 14th year as a teacher.
