

SCIENCE

All units will provide tasks that allow for active participation, exploration and experimentation.

PHYSICAL EDUCATION

Students will be given opportunities to show their mastery of our learning targets through various types of assessments.

VISUAL AND PERFORMING ARTS

Art - All lessons will incorporate and present all steps of the Creative Process.

Music - Concert Band students will be offered three choices to successfully achieve their performance assessments.

SCHOOL GOAL #1

STUDENT OWNERSHIP

Teams will use strategies to elicit student ownership of work and performance in order to create more student engagement and to nurture a growth mindset.

2022-2023

MATH

Students will have opportunities to reflect on their understanding of the learning targets throughout the unit.

HISTORY

Students will engage in research and track their progress through the research project tracker. The tracker requires students to log and link their work and reflect on their progress and process. As this is a long term project, student monitoring is important in their growth as a researcher and self-guided student of history.

ENGLISH LANGUAGE ARTS

For narrative, argumentative, and explanatory writing, students will be provided 2 mentor texts of "4-Mastery" and 1 mentor text of "2-Developing" or "1-Beginning" in order for students to gain ownership of their work and performance.
